POST-HARVEST TECHNOLOGY OF MAJOR CROPS IN NEPAL  

Khadga B. Shrestha

A. Introduction 124
B. Socio-economic status 124
C. Agricultural status 125
D. Food situation 125
E. Post-harvest technology 126
F. Major issues 128
G. Summary and conclusions 129

References 130
Appendix 133

POST-HARVEST TECHNOLOGY FOR VARIOUS CROPS OF PAKISTAIN: CURRENT STATUS, EMPLOYMENT GENERATION AND PROSPECTS

Munir Ahmad

Abstract 138
A. Introduction 139
B. Present status of post-harvest processing 140
C. Constraints faced by post-harvest industry 145
D. Government policies and strategies towards post-harvest processing 146
E. Post-harvest technology and employment generation 146
F. Future prospects 148
G. Conclusions and recommendations 149
POST-HARVEST TECHNOLOGY IN THE PHILIPPINES

Susana G. Castro

Abstract

A. Introduction
B. Post-harvest situations
C. Post-harvest technologies in the Philippines
D. Implications of post-harvest technology for employment generation in the rural sector
E. Conclusions and recommendations

References

POST-HARVEST MANAGEMENT TECHNOLOGIES AND POLICY ON AGRICULTURAL PRODUCTS IN THE REPUBLIC OF KOREA

Cho Kwang Hwan

Abstract

A. Introduction
B. Status of post-harvest management system
C. Post-harvest management technology
D. Policy proposals for post-harvest management
E. Conclusions

References

POST-HARVEST RESEARCH AND DEVELOPMENT IN VIET NAM

Nguyen Duy Lam

A. Introduction
B. General information on the post-harvest situation
C. Post-harvest research in Viet Nam
D. Recommendations and priorities for research and development
LIST OF CHARTS

4.1 Three stages of sweet potato production (Sichuan) 50
4.2 Calculated income from 100 kg of sweet potato (yuan) 51
6.3 Flowchart of assessment of milling ratio 114

LIST OF FIGURES

5.1 Flow diagram of value addition to the harvested biomass of plant and animal origin 68
5.2 Process flow chart and mass balance for making pigeonpea dal (improved process) 73
6.1 Population trend 109
6.2 Production of main crops 110
10.1 Breakdown of post-harvest losses in rice 156
10.2 Breakdown of post-harvest losses in corn 156
11.1 Post-harvest management system 165
11.2 Basic processing steps in RPC 166

LIST OF TABLES

2.1 Major potato producers in the world, 2001 27
2.2 Potato production, growth rate in major potato producing countries in Asia, 2001 27
2.3 Potato production, growth rate in 1993 and its projection to 2020 27
2.4 Potato consumption, growth rate in 1993 and its projection to 2020 28
2.5 Imports of frozen potato fries into ESCAP countries, 2000 28
2.6 Usage and consumption of worldwide potatoes, 1994-1996 28
2.7 Trading of worldwide potatoes, 1999 29
2.8 Trading of worldwide frozen potatoes, 1999 30
2.9 Agro-enterprise, its employment and production value, 1998-2002 30
2.10 Employment effects of sweet potato starch and noodle processing in China by scale of enterprise 31
2.11 Aggregate employment in sweet potato and potato starch / noodle processing enterprises in China, 1997 31
3.1 Dietary pattern in Bangladesh compared to the desirable dietary pattern 34
4.1 Statistics of sweet potato production in Sichuan, 1952-2000 49
4.2 Variety of starch produced in China, 2000 51
4.3 Production capacity of the major factories in Sichuan 53
4.4 Specifications and estimated investment for equipments 54
4.5 Performance, specifications and estimated investment 55
4.6 Main technical parameters and investment calculation of equipments 57
4.7 Main equipments and investment calculation 57
4.8 Main parameters and investment calculation 58
5.1 Indian rural and urban population during the 20th century and beyond 64
5.2 Production of plant and animal origin major food commodities in India, 2002-2003 65
11.3 APC installation status (2001) 168
11.4 Various grader and their applications 169
11.5 Major horticultural crops handled in the APC 170

ANNEX 187-194

I. Programme 187

II. List of participants 190

III. SWOT data analysis 194
